Additional Terms

The paper statement fee of \$2.00 can be avoided by achieving the following criteria:

This account will not incur any overdraft fees. If there are insufficient funds in your account, the transaction will be declined and returned unpaid, which could result in a fee from the merchant. This applies to checks, debit card transactions and any scheduled bill payments.

There could be times your balance may go into the negative, but you will not incur an overdraft fee. This could happen if you receive paper statements and there are insufficient funds to cover the fee. Or if a debit card/scheduled payment was preauthorized for one amount but clears the account as a larger amount and there are insufficient funds.

^{*} Receiving an eStatement
